

International and local peer to peer programs

Approach of on the job coaching implemented in many countries internationally including UK and EU, US, Kyrgyzstan and Bangladesh.

In Lebanon many workshops have been hosted with heads of municipalities, and next stage is to provide on the job coaching on the ground.

Case study best practice : Biclean

- Bikfaya municipality have demonstrated best practice in SWM through their initiative Biclean
- Elie Madi is responsible at the municipality and will give an overview of :
 - The establishment and operation of the facility
 - His work with ACTED supporting municipalities in Lebanon to improve their SWM
 - The successful approach the municipality takes in dealing with donors and NGOs after demonstrating the sustainability of their program

Platforms for best practice exchange

Workshops between national and local authorities

- Facilitated a workshop between the Ministry of Environment and several municipalities at the MoE offices
- Allowed the municipalities to ask questions to those directly responsible at the MoE regarding policies and their practical implementation
- MoE gained a better understanding of the barriers faced by municipalities
- MoE interested and willing to replicate meetings with other municipalities

Workshop hosted by ACTED at MoE. In attendance : MoE, municipalities and OMSAR

Platforms for best practice exchange

Web based learning and exchange

- ACTED have recently launched a website calling on local authorities/communities to promote the good work they are doing
- There are some information tools available online, and will be updated regularly
- Will focus in coming months on increased dissemination through ongoing programs and partners
- Host Municipality Network - another platform for exchange in Lebanon

SWM as a opportunity:

Creating employment through Live Love Recycle

Environmental degradation

- Lebanese authorities are finding themselves further and further strained by SWM in Lebanon
- Need improved community solid waste management to reduce the impact of the garbage crisis in densely populated urban areas – starting with Beirut
- Perceived willingness for communities to be engaged in the restoration of the environment

Decreased household level cash assistance

- Need for improved access and/or the provision of income-generating opportunities for vulnerable populations
- 416 bike riders hired for part time employment collecting waste from households
- 20 women hired to cater for the workers
