Working for a Sustainable Mediterranean, Caring for our Future

Session I: SWIM-H2020 SM: Where we are and what is still to happen in Israel Implementing the Israel work programme

SWIM-H2020 SM National Meeting: Israel

Supporting sustainable water resources and a clean environment in the Mediterranean region

Tel Aviv, 18 December 2018

This Project is funded by the European Union

SWIM-H2020 SM Expert Facility: Environment Component - 5 activities in Israel

EFH-IL-1 : Green and circular public procurement in central and local government in Israel, through policy development and capacity building for manufacturers and procurers

Description of the activity/ Status		%
<p>The purpose of the activity was to support the on-going efforts of Israel to accelerate green procurement and green economy in general.</p> <p>A first mission was carried out on 23-25 July 2017, including meetings with various stakeholders, on the findings of which the Non-Key Expert submitted the proposed next steps (including a second mission).</p> <p>In the summer of 2018 it was jointly decided to allocate the remaining expert days to other on-going activities as the timing for the deepening of the activity was not optimal.</p>	<p>The meeting with the expert provided new insights to several bodies such as the ministry of economy, manufacturers association, the governmental procurement administration.</p> <p>Main result: prioritization of relevant sectors</p> <p>Although it was part of the process, the governmental procurement administration backed off.</p> <p>The MoEP continues to promote GPP with the mentioned and new stakeholders.</p>	<p>Reallocated/ considered concluded</p>
