

PROMOTING SCP and GREEN ECONOMY FOR WASTE, ENERGY AND TRANSPORT SECTORS IN JORDAN 27-28 November 2018

Hotel Geneva, Amman

SWIM H2020 SM - EFH-JO-3: Workshop 1: Training on GGP & SCP for three focus sectors

Background

The National Green Growth Plan (NGGP) approved in February 2017 in Jordan identifies six priority sectors that provide coverage of key green growth issues and opportunities: transport, water, tourism, energy, agriculture and waste. The plan has a clear vision for Jordan as a country with an expanding and sustainable economy that creates jobs, income for its citizens, contributes to achieving social inclusion and is resilient to external shocks and instability in the region.

The Sustainable Consumption and Production National Action Plan (SCP NAP) sets up the transition to a Green Economy and is considered an important tool to prevent pollution and implement some of the Green Growth initiatives in Jordan, in particular in the areas of transport, energy efficiency, and waste.

The Sustainable Water Integrated Management & Horizon 2020 Support Mechanism (SWIM-H2020 SM) is a European Union funded Regional Technical Support Program that includes Jordan. This Workshop will support the Ministry of the Environment in implementing the road map set in the NGGP, using the SCP NAP proposed guidelines, in particular, the development of financial instruments and incentives to promote circular economy and SCP.

Learning Objectives

- Participants to have a better understanding of the National Green Growth Plan and the Sustainable Consumption and Production National Action Plan and how these national plans are directly linked to supporting green investments, and an enabling environment for the implementation of these plans and the Jordan's Environment Protection Fund.
- To enhance the capacities on circular economy and SCP principles of participants to prevent pollution and to enable the emergence of green jobs, green businesses, and new business models.
- Enabling environment for private sector engagement in the fields of Waste, Transport and Energy Efficiency.

Workshop Format

Two days interactive learning conducted by national representatives and the EU SWIM H2020 SM experts.

Day 1: 27 November 2018, 08:30 to 15:30 (Registration starts at 8.00)

Time	Module	Outline content	Presenter
8.00-8.30	Registration of trainees		
8.30- 8.45	Housekeeping & Introductions to the project	<ul style="list-style-type: none"> • Safety/logistical notices • Welcome & introductions • Learning objectives 	Marta Junquera (SCP/RAC – SWIM-H2020 SM)
8.45-9.00	Opening	Opening remarks by officials	H.E. Eng. Ahmad Alqatarneh – Secretary General Ministry of Environment Mr. Omar Abu Eid – Energy, Environment & Climate Change Programme Manager - EUD representative
